

FARMALL C

# FARMALL C

TRACTORS FROM  
90 – 120 hp

CASE IH

CASE IH

## THE ONE FOR ALL

The new FARMALL C series shows our commitment to our heritage and continuing our legacy within this power segment. Ready for the future by honoring the past.

### FARMALL C

4 models from 90 up to 117 hp

The new Farmall C is the most comfortable and versatile utility tractor, delivering high performance with driving pleasure. To meet modern farming demands, we enhanced the Farmall C with a new style, improved visibility, and wide offering of LED lighting packages. The ActiveDrive 2, 24 x 24 Hi-Lo transmission offers great versatility and improved operator experience. Upgrade to the latest standard of Case IH precision technology same as the top of the line up.

### THE EFFICIENT ONE

- Increased GVW to 7 tons (+7.5%) with improved lifting capacity of 4.7 tons, enhancing daily task capabilities and versatility.
- More hydraulic flow up to 82 L/min, enabling operation of advanced implements and boosting reaction times.
- ActiveClutch simplifies operations with automatic clutch engagement when braking, reducing operator stress and enhancing safety, especially with front loaders.
- Heavy Duty front axle, equipped with larger cylinders for improved durability and steering capacity.
- Extended workhours thanks to increased fuel-tank capacity (130 L).

### THE COMFORTABLE ONE

- Optional integrated cab suspension ensures a smooth ride, reducing operator fatigue.
- Front loader ready with an upgraded joystick for simple, safe one-handed operation, featuring an improved shuttle switch, 3rd hydraulic function, engine speed memory, and gear shift.
- New display shows essential machine parameters and settings, keeping you informed without distractions for better focus on tasks.
- Enhanced LED lighting package provides superior visibility at night.
- Improved visibility due to repositioned exhaust offering an open, unobstructed view.
- Optional Variable Ratio Steering reduces steering wheel turns, enhancing driving comfort during extensive maneuvering.

### THE ALL-PURPOSE ONE

- ActiveDrive 2 transmission with 24x24 speed (40x40 with optional creeper) for improved speed adaption to the desired operation, improved power curve balance optimizing handling experience.
- Larger tire offering possible up to 540/65R38, improving traction while reducing compaction due to the larger footprint, boosting soil life.
- Front loader ready from factory. Choose from the wide range of new Case IH L front loaders.
- Front hitch with new wet clutch PTO offers increased power transfer and durability, enhancing serviceability.
- Auto-PTO (rear) stops the PTO at a preset lift arm height, improving operator comfort and supported within Headland Management.

### THE ADVANCED ONE

- Full ISOBUS Class II capability available for integration of all ISOBUS implements into the cab's display.
- Optional Base Telematics with lifetime subscription including Instant access through Case IH FieldOps™ via your computer or App to the most important data like: main tractor parameters (fuel usage, performance, etc.) alerts, seasonal data or connected machine data.
- Case IH FieldOps Farming portal to provide a unified web and mobile experience.
- Optional Advanced telematics with Guidance Package available, which includes the Case IH Pro 1200, for agronomic data sharing and remote service support.

Safety never hurts! Always read the Operator's Manual before working with any equipment. Inspect equipment before using it, and be sure it is operating properly. Follow the product safety signs, and use any safety features provided. This literature has been published for worldwide circulation. The standard and optional equipment and the availability of individual models may vary from one country to the next. Case IH reserves the right to undertake modifications without prior notice to the design and technical equipment at all times without this resulting in any obligation whatsoever to make such modifications to units already sold. Whilst every effort is made to ensure that the specifications, descriptions and illustrations in this brochure are correct at the time of going to press, these are also subject to change without prior notice. Illustrations may show optional equipment or may not show all standard equipment. Case IH recommends **AKCELA** lubricants.
